

Geometry
Chapter 6 Exam Review

Topics that you should understand from Unit 6.

- Triangle Midsegment
- Triangle Inequalities in 1 triangle
- Triangle Inequalities in 2 triangles

Fill in the blanks.

1. \overline{DE} is parallel to _____
2. \overline{KJ} is parallel to _____
3. $FE = \frac{1}{2}$ _____
4. $JE =$ _____ $=$ _____
5. If $KL = 12$, find DE
6. If $DJ = 5$, find FE
7. If $KD = 15$, find KJ
8. If $DE = x + 5$ and $KL = 24$, solve for x .

9. If $JL = 3x + 6$ and $DF = x - 12$, solve for x .

Determine if the given measurements can form a triangle.

- | | | | |
|---------------|----------------|--------------|--------------|
| 10. 17, 10, 7 | 11. 12, 15, 13 | 12. 8, 10, 8 | 13. 14, 7, 5 |
|---------------|----------------|--------------|--------------|

Determine what two numbers the length of the third side of a triangle will fall between, given the first two sides.

- | | | |
|--------------|---------------|---------------|
| 14. 7 and 12 | 15. 18 and 10 | 16. 13 and 20 |
|--------------|---------------|---------------|

List the sides in descending order.

List the angles in descending order.

Fill in the blank with $>$, $<$, or $=$.

21. LM _____ MN

22. CP _____ TP

23. AD _____ DC

Write and solve an inequality for the variable.
