

CHOICE Geometry Academic & Discipline Plan

PROUD to be Crimson Bears; preparing lifelong learners in a challenging and inclusive environment.
Personalized, Resilient, Optimistic, Unified, Diverse.

Instructor	Ms. Razor	E-mail	alexandra.razor@juneauschools.org
		Website	www.msrazormath.com
		Twitter	@RazorMath
Office Hours	During tutoring hours, enrichment, and by appointment	Phone	907-523-1592

Course Description:

In Geometry students will develop reasoning and problem solving skills while learning topics such as congruency, similarity, polygon relationships and properties, properties of lines, circle properties, and solids. Students will learn how Geometry relates to the real world through problems, activities, and projects.

Please note: Enrollment in a yearlong class is a commitment for the entire school year. Requests for changes must include a conference with the parent, student, and teacher.

Text(s):

Big Ideas Math: Geometry, 2015.

Please note: Many textbooks are issued through the JDHS Library's textbook management system. If a textbook is checked out through the JDHS Library, it must be returned in the same condition at the end of the course or unit of study. Failure to return a book or damage to a book may result in a monetary fine based on the value of the textbook and restricted access to PowerSchool.

Materials to Bring to Class:

Pencil(s)

Composition Notebook (it may NOT be a spiral notebook)

Lined paper

At this time I am also taking class donations so that we have supplies to last the entire year. It would be great if each student brought in 1 or 2 of the items listed below.

- Kleenex
- Pencils (preferably Ticonderoga)
- Lined Paper
- Expo Markers (students will use them a lot this year during different activities)

Proper Heading for Papers:

In top right corner, please include the following:

First Name, Last Initial

Assignment Name

Papers need to be easy to read and answers should be circled, boxed, or highlighted. Assignments also **must** be completed in pencil. Full credit will not be given for work done in pen, marker, crayon, etc.

Course Syllabus:

Students will know which assignments are due and when upcoming assessments, projects, etc., are due by following the class website (www.msrazormath.com), using the remind app, and following Twitter @RazorMath.

Goals/Objectives:

1st Quarter: Basic geometry topics, distance formula, midpoint formula, segments, angles, angle relationships, parallel lines, slope, triangles, triangle measures, congruent triangles, relationships with triangles, and similar polygons.

2nd Quarter: Right triangles, right triangle trigonometry, quadrilateral properties, transformations on the coordinate plane, properties of circles, area, perimeter, volume, surface area.

Throughout the semester we will also be reviewing Algebra I topics: solving equations and inequalities, graphing linear equations, solving systems of equations, working with polynomials and monomials, factoring polynomials, and simplifying radicals.

Curriculum/Standards:

This course will be taught to district standards and district curriculum. The Juneau School District curricular information may be reviewed using the Juneau School District website under the *District – Teaching and Learning Support – Curriculum* at <http://www.juneauschools.org>. The NEW Alaska State Standards can be found on the Alaska Department of Education and Early Development website: <http://www.eed.state.ak.us/standards/>.

Grading:

Grading will follow the policy adopted by the Juneau School District Board of Education (Board Policy # 6146.7R). As per board policy, semester grades represent the cumulative progress of students.

A = 90% - 100%

B = 80% - 89%

C = 70% - 79%

D = 60% - 69%

F = 0% - 60%

“INC” = Incomplete

Grades will be calculated based on total points earned. Below is a description of each category and how many points they will be worth.

Tests (100 points each):

Tests will be given at the end of each unit, which will usually be 3 to 4 tests per quarter. Students will be allowed to make test corrections during tutoring hours to raise their test grade. Students will be able to make corrections on their test up until the next unit test is given.

Quizzes (50 – 75 points each):

Several quizzes will be given for each unit. All quizzes will be **open notes**, but there will be a time limit for the quizzes. Vocabulary quizzes will be given 2 to 3 days per week. Each vocabulary quiz will have 5 questions and will **not** be open notes.

Homework/Classwork (5 – 10 points each):

Homework will be assigned 3 to 4 times a week. Occasionally time in class will be provided to work on the assignment. Homework will be checked for completion (with work shown) and questions will be gone over in class. If you come into class with questions from Homework, it will be your responsibility to write the questions on the Homework Questions Board. The majority of work done in class will also be graded.

Notebooks (20 – 45 points each):

Students will be responsible for keeping an interactive notebook. This notebook can be used on quizzes and will be graded during each test. The notebook will be graded on completion, organization, and neatness. This notebook is an excellent tool to help students with their homework and study for tests. We will be using the notebook as a review and summary tool on a weekly basis.

Projects (25 – 100 points each):

There will be chapter projects assigned throughout the course. When a project is assigned a rubric will be provided for the project's expectations. Students will have time to work on projects in class and also be required to work on them outside of class.

Extra Credit (5 – 10 points each):

Extra credit will be provided throughout the semester. It is important for students to complete the extra credit when it is given because extra credit will **NOT** be given at the end of the semester. Extra credit opportunities will also be provided occasionally during tutoring sessions.

PowerSchool is the system used to display grades and work progress. I am committed to updating student records bimonthly at a minimum, recognizing the importance of a live-time feedback system for parents and students. Please ensure that you **AND** your student have access information to use this system in partnership with me.

Late/Make-up Work Policy and Procedures:

Late work will be accepted, but points will be taken off for being late. **Assignments from a chapter will not be accepted after that chapter test.** When making up late work, students will be required to come in for Enrichment, Lunch, or tutoring to make up the assignments.

Resources/Extra Help:

Tutoring sessions are provided 2 to 3 days per week. Students and parents are also encouraged to visit the class' website, www.msrazormath.com. The website will include videos to help students and parents understand the material covered in class and other links to websites that can provide more support. Students will also be given access to the Big Ideas Geometry learning website which will have additional practice and support. Throughout the year students will use other websites like Quizlet and Khan Academy. All websites and additional resources will have links from the main class website, www.msrazormath.com.

Tutoring Times

During the year the tutoring times may change due to other circumstances. Students and parents will be aware of the tutoring time changes through the weekly tutoring schedule in the room and announcements made in class. If you are unable to attend a tutoring time because of a scheduling conflict, it will be important for you to talk with Ms. Razor and make arrangements for the possibility of an alternate tutoring time.

Monday: 3:45 pm – 4:30 pm

Tuesday: 8:15 am – 9:15 am

Wednesday: Enrichment Period & 3:45 pm – 4:30 pm

Thursday: 8:15 – 9:15 & Enrichment Period

Weekly tutoring schedule will be posted on the classroom door, on the website, and sent through Remind. Students should understand that if there is a sub, there will not be tutoring that day.

I will make every effort to respond to e-mail or phone messages within one school day. I will do my best to make students aware of my daily schedule and to provide extra assistance when needed (see tutoring hours above). Students and parents are encouraged to make appointments ahead of time to ensure that I am available. Students may also receive extra help through the **JDHS Learning Center** located in the school library.

Behavioral Expectations:

Class Rules

1. Show respect to all people.
2. Show respect to other people's property.
3. Talk at appropriate times and use appropriate language.
4. Bring all needed materials to class.
5. Be seated and ready to begin when the bell rings.
6. Obey all school rules.

Please note: Students are expected to adhere to JDHS policies, as outlined in the Student Handbook, at all times. Classroom policies may include more specific requirements, but they cannot be relaxed beyond the minimums as set forth in the Student Handbook.

Consequences of Misbehavior:

1. Verbal Warning
2. Student/Teacher Conference
3. Parent Contact
4. Detention with me
5. Referral

Please note: Any action that endangers others, seriously interferes with the learning process, or is significantly disrespectful to staff or students may result in immediate removal from the classroom and/or direct referral to an administrator, thus by-passing above consequences.

Food and Drink in Class:

Students are allowed to have food and drink in class as a privilege. **Energy drinks are not allowed in class.** If a student is late to class they will lose that opportunity. If a student does not clean up after themselves, they will lose that privilege. If a pattern occurs where multiple students are leaving messes, then the entire class will lose their privilege.

ACADEMIC DISHONESTY— (From the JDHS Student Handbook):

Academic dishonesty or “cheating” does not allow for any type of true analysis and is not tolerated. Cheating includes, but is not limited to

1. Procuring, possessing, using, or distributing tests, quizzes, answer keys, teacher manuals, teacher textbooks and similar materials;
2. Any attempt to tamper with or alter a teacher's record or grades;
3. Representing the work of others as one’s own work, whether the materials are plagiarized from another student, a published work or some other source, such as an Internet site.
4. Making use of notes or other memory aids during testing, except for those notes a teacher specifically authorizes for student use during a particular test or quiz, and;
5. Obtaining or offering unauthorized information regarding tests or assignments.

The *academic penalty* for all parties involved in cheating is a zero or failing grade for any copied or plagiarized assignment, exam, or quiz. Students will not be allowed to make-up the work. Also, the *disciplinary penalty* for cheating may include an office referral for disciplinary action. Possession and/or unauthorized distribution of testing materials or altering a teacher's records call for severe disciplinary consequences. **Repeat offenses could result in loss of credit for an entire course.**

Electronic Devices Guidelines:

1. Earbuds and headphones are not allowed unless given permission from Ms. Razor.
2. When you are given permission to listen to music, it may NOT be videos or movies.
3. Device must remain in your bag, pocket, or on your desk (not in your lap).
4. If you are using your device at inappropriate times, it will be taken and turned into the office.
5. If devices become a distraction, the class will lose this privilege.
6. **NO:** gaming, social media, and taking pictures and/or videos of others without their consent.
7. Additional guidelines can be added by Ms. Razor when the need occurs.

PLEASE NOTE THAT EACH ACADEMIC/DISCIPLINE PLAN REQUIRES A SIGNATURE FORM TO BE RETURNED TO EACH TEACHER. THESE FORMS WILL BE GIVEN TO STUDENTS IN CLASS.

In an effort to decrease our use of paper resources Juneau-Douglas High School has decided to make our Academic/Discipline Plans available on our school website. Please go to <http://jdhs.juneauschools.org/> to review the contents of the CHOICE Geometry plan. You may also go to my website, www.msrazormath.com to find a copy of the Academic Discipline Plan.

I have read and understand the Academic/Discipline Plan for the class of CHOICE Geometry.
