

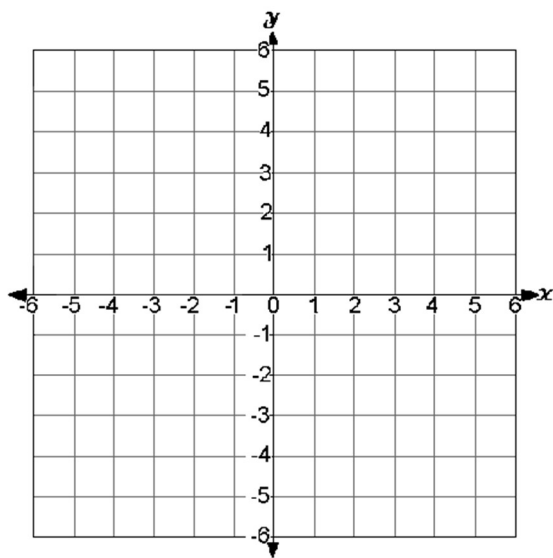

## GRAPHING HORIZONTAL AND VERTICAL LINES – MINI LESSON

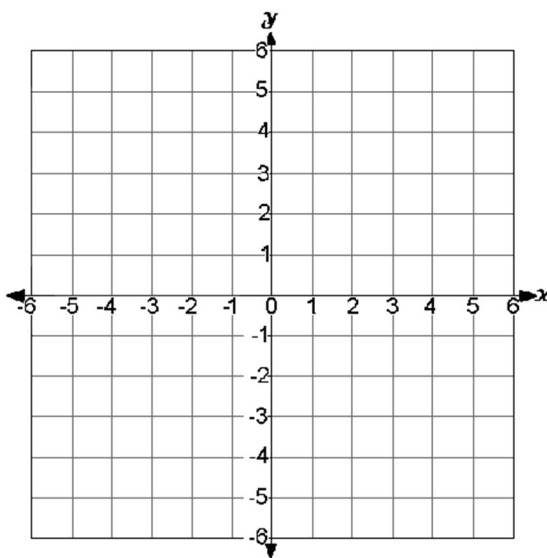

Vertical and Horizontal lines have only \_\_\_\_\_ variable.

Any equation with \_\_\_\_\_  $x$  and  $y$  is a \_\_\_\_\_ line

$$x = 3$$

$$y = -2$$

$x =$  equations are \_\_\_\_\_ and they **never** cross the \_\_\_\_\_

$y =$  equations are \_\_\_\_\_ and they **never** cross the \_\_\_\_\_
