<u>**SECTION A1: EQUIVALENT FRACTIONS**</u>

<u>Fraction</u>: a _____ of a number

## <u>Creating Equal Fractions</u>

➢ Multiply the _____ and _____ by the same number

$\frac{2}{3}$                                        $\frac{4}{7}$

## <u>Reducing Fractions</u>

➢ Divide the _____ and _____ by the same number

$\frac{10}{15}$                                        $\frac{32}{40}$

## <u>Working with Mixed Numbers and Improper Fractions</u>

➢ Improper Fraction: the _____ is _____ than the

_____.

➢ Mixed Number: There is a _____ number and a _____ part.

$4\frac{1}{5}$                                        $\frac{33}{5}$
