

LESSON B4: GRAPHING LINEAR INEQUALITIES

Homework: _____

Learning Targets: 3. Graph linear equations & inequalities using slope-intercept form and intercepts.

Steps for Graphing Linear Inequalities

1. When graphing Linear Inequalities, you must _____ first!
2. Graph the line by plotting the _____ then counting the _____
3. Connect the dots with _____ or _____ lines
4. Shade _____ or _____ the line
5. The solution are is _____

$$2x + 3y > 6$$

$$3x - y \geq 4$$
