

## SECTION C4: ORDER OF OPERATIONS - MDAS

**Homework:** \_\_\_\_\_

### **Learning Targets:**

- C5. Understanding of how order of operations works.
- C6. Understanding of how to evaluate an expression using substitution and order of operations.

When working with order of operations, you use \_\_\_\_\_

M - \_\_\_\_\_ or D - \_\_\_\_\_

A - \_\_\_\_\_ or S - \_\_\_\_\_

1.  $2 \cdot 4 - 3 + 6$

2.  $2(-3) - 4 \div 2$

3.  $5 - 2 \cdot 3 + 4$

Evaluate: You \_\_\_\_\_ values into different \_\_\_\_\_.
