

## Section A3 Practice

Evaluate each expression. Choose 1 problem to do on the left or right for each row. If you want extra practice, try both!

1)  $\frac{2}{3} + \frac{1}{3}$

2)  $\frac{2}{5} - \frac{1}{5}$

3)  $\frac{11}{8} + \frac{3}{8}$

4)  $\frac{3}{2} + \frac{3}{2}$

5)  $\frac{1}{2} + \frac{2}{3}$

6)  $\frac{1}{3} + \frac{1}{6}$

7)  $\frac{7}{4} - \frac{5}{3}$

8)  $\frac{4}{5} + \frac{7}{4}$

$$9) \frac{1}{2} + \frac{1}{5}$$

$$10) \frac{7}{4} + \frac{3}{2}$$

$$11) 5 - \frac{1}{4}$$

$$12) \frac{3}{2} - \frac{5}{8}$$

$$13) \frac{7}{8} + \frac{1}{4}$$

$$14) \frac{9}{8} - \frac{5}{6}$$

$$15) \frac{2}{7} + \frac{1}{4}$$

$$16) \frac{1}{4} + \frac{5}{4}$$

$$17) 3\frac{1}{2} + \frac{3}{8}$$

$$18) \frac{7}{8} + 4\frac{5}{6}$$

$$19) 4\frac{1}{6} - 1\frac{5}{6}$$

$$20) 2\frac{5}{8} - \frac{3}{5}$$
